

Anschlußschema

Kenndaten nach EN 60947-5-2

Elektrische Daten

| | | |
|------------------------------------|-----------|---|
| Bemessungsbetriebsspannungsbereich | U_B | 10 – 60V DC |
| Bemessungsisolationsspannung | U_i | 75V DC |
| Bemessungsstoßspannungsfestigkeit | U_{imp} | 500V |
| Spannungsfall | U_d | $\leq 2,5V$ |
| Gebrauchskategorie | | DC-13 bei $I_e = 50mA$ und $U_e = 33V$ DC |
| Bemessungsbetriebsstrom | I_e | $\leq 200mA$ |
| Reststrom | I_r | $< 0,1mA$ |
| Leerlaufstrom | I_0 | $< 8mA$ |
| Schutzart | | IP 67 |
| Art des Kurzschlußschutzes | | taktend |
| Bemessungsschaltabstand | s_n | 7mm |
| gesicherter Schaltabstand | s_a | 0 ... 5,7mm |
| Wiederholgenauigkeit | R | $\leq 5\%$ |
| Hysterese | H | $\approx 10\%$ |
| Schaltfrequenz | f | 200Hz |
| Schaltelementfunktion | | DC, Öffner |
| Einbauart | | nicht bündig |
| Verpolschutz | | ja |
| Ausgang | | dauerkurzschluß- und überlastfest |
| Bereitschaftsverzug | t_v | $\leq 50ms$ |

Elektromagnetische Verträglichkeit (EMV)

| | |
|---------------------------------------|---------------|
| Hochfrequenzbeeinflussungsfestigkeit | IEC 61000-4-3 |
| Elektrostatische Entladungsfestigkeit | IEC 61000-4-2 |
| Transientenfestigkeit | IEC 61000-4-4 |
| Störaussendung | EN 55011 |
| Stoßspannungsfestigkeit | IEC 255-5 |

Mechanische Daten

| | |
|---------------------|--|
| Umgebungstemperatur | -25°C bis +70°C |
| Gehäuse | PBT, schwarz |
| Funktionsanzeige | LED, gelb |
| Anschlußart | Kabel 3 x 0,5mm ² x 6m, PVC-Mantel, schwarz |

Technical Data Inductive Proximity Switch

Type: **KIN-E68NÖ/007-KL6**

Part.-No.: **650.2156.058**

Wiring Diagram

Technical Data according to EN 60947-5-2

Electrical Data

| | | |
|----------------------------------|-----------|---|
| Operational voltage range | U_B | 10 – 60V DC |
| Rated insulation voltage | U_i | 75V DC |
| Rated impulse withstand voltage | U_{imp} | 500V |
| Voltage drop | U_d | ≤ 2,5V |
| Utilization category | | DC-13 @ $I_e = 50mA$ and $U_e = 33V$ DC |
| Rated operational current | I_e | ≤ 200mA |
| Off-state current | I_r | < 0,1mA |
| No-load supply current | I_0 | < 8mA |
| Type of protection | | IP 67 |
| Short-circuit protection | | pulsed |
| Rated operating distance | s_n | 7mm |
| Assured operating distance | s_a | 0 ... 5,7mm |
| Repeat accuracy | R | ≤ 5% |
| Differential travel (hysteresis) | H | ≈ 10% |
| Frequency of operating cycles | f | 200Hz |
| Switching function | | DC, N.C. |
| Mounting | | non flush |
| False polarity protection | | yes |
| Output | | permanent overload and s.c.p. |
| Time delay before availability | t_v | ≤ 50ms |

Elektromagnetische compatibility (EMC)

| | |
|---|---------------|
| Electromagnetic field test | IEC 61000-4-3 |
| Electrostatic discharge test | IEC 61000-4-2 |
| Electrical fast transient immunity test | IEC 61000-4-4 |
| Radiated disturbance field strength | EN55011 |
| Impulse voltage withstandability | IEC 255-5 |

Mechanical Data

| | |
|-----------------------|--|
| Operating temperature | -25°C ... +70°C |
| Housing | PBT, black |
| Indication | LED, yellow |
| Termination type | Cable 3 x 0,5mm ² x 6m; PVC - Outer jacket, black |
